About TSSD Services Inc.

TSSD Services, Inc. (TSSD) is a **leading provider of professional and technical staffing solutions**, established in 1999. The company was acquired by NUVIA in 2024, which is part of VINCI Group and nuclear division of Soletanche Freyssinet.

Specializing in the energy and utility sectors, with a focus on the nuclear industry, TSSD excels in delivering highly skilled management and technical resources at every stage of the nuclear plant lifecycle— from construction and commissioning to operations, capital improvements, decommissioning and long-term dry fuel storage and management.

TSSD excels in decommissioning and environmental remediation, expertly managing decontamination, demolition, and site remediation projects. We handle the segregation, packaging, and disposal of low-level radioactive, hazardous, and clean demolition wastes, ensuring safe and efficient outcomes every time.

Our experienced team has a proven track record of successfully managing safe, efficient, and cost-effective projects.

TSSD has expanded its expertise beyond the nuclear industry, now offering top-tier resources for the rapidly growing renewable energy market.

- Transition Planning and Change Management
- Project Management, Organization and Oversight
- Financial Governance
- FERC Related Activities
- DOE Breach of Contract Litigation and SNF Cost Recovery

Trusted Partners in Project Management Since 1999

TSSD has been a key player in the successful decommissioning of major nuclear plants, including Maine Yankee, Connecticut Yankee, and Yankee Atomic Electric. Our expertise extends to many high-profile decommissioning projects such as Fort Calhoun, Vermont Yankee, Crystal River and San Onofre Nuclear Generating Station, as well as long-term support for dry fuel storage operations.

In addition to nuclear decommissioning, we are deeply involved in environmental remediation projects for the Department of Energy, including Oak Ridge and Paducah Gaseous Diffusion Plant. These projects focus on waste management, contamination cleanup, and facility decommissioning.

TSSD also serves the broader energy sector, contributing to wind, solar, battery storage and hydro power projects across the nation, demonstrating our expertise across multiple sectors.

Our references

The Connecticut Yankee decommissioning project was one of the early commercial reactor D&D projects in the U.S., and TSSD was integral to its success. Today, we continue provide staff augmentation and technical support to Connecticut Yankee's ISFSI and spent fuel management operations.

"During my 30+ years of managing nuclear projects, including decommissioning, I have found TSSD to be one of the most reliable professional staffing services. They have provided each of my projects with a significant number of the best and most dependable professionals that I have met in this industry."

Wayne Norton, President and CEO,
Connecticut Yankee and Yankee Atomic.

What makes us unique

- Our unique combination of industry experience, a robust network of contacts, and a commitment to delivering tailored solutions. With a deep understanding of the nuclear sector and extensive connections, we're able to identify and attract top-tier professionals, ensuring that we meet a wide range of client needs with precision.
- Our lean core team of full-time management staff allows us to offer high-quality service while keeping overhead costs low, making us highly competitive in the marketplace.
- As part of the NUVIA and VINCI Group, we benefit from a vast global network of expertise, expanding our capabilities and broadening our reach to deliver superior results.
- At TSSD, we collaborate closely with our clients to guarantee the highest standards of safety, performance, and sustainability, helping build a safer, cleaner and sustainable world.
- We are committed to providing an exceptional employment experience, recognizing that our employees are our most valuable asset. We make every effort to offer them high-quality support and resources, enabling them to thrive and make a meaningful contribution, creating value for our clients.
